#### TO THE PUBLIC.

How true it is, that modern Physicians-in their Embiti on to excel in their profession; to explore t e vast fields of science by the aid of chemi-try, and seek out new remedial agents; in short to arrive at perfection in the practice by means of art alone, entirely overlook and neglect, as beneath their notice the rich and bounteous stores of medicine, which the Almighty has caused to spring out of the arta a every clime! And how such more true it is, that while the America Physician looks to torjagn ountries for many of his nost common and accessary articles perpetuall changing as they are, the indictat s of faminin or follyhe is surrounded his own country wittn an endless praofusiono

The congeniality, efficiency and sarkty of regulable remedies over mineral, may be estimated by contrasting the ancient practice with the modern; er, to bring it more im nediately under our own observation, the Indian practice with that of the whites. Who, in America, has not kn wn or heard of repeated instances wherein some decreped, unpretending female Indian by means of her simple remedies alone, has effected the most rapid and astonishing cares, after the whole Materia Medica of the common practice, directed in the most skilful manner, has failed? And who has not been surprise ed at beholding the comparative case and facility with which the India : frees hunself of any dissase, and at the almost total absence of chronic disease a nong them. Who has ever heard of an Indian with a constitution broken and ru ned by illtreatment? And can a doubt exist, that this happy exemption of the savage from most of the ills which the A sh of civilized man is he r to, is chiefly owing to themore genial and safe remedies which he employs? This astonishing difference in success, is a fair exemplification of the infinite superiority of the sample and safe means of cure which God has created for the benefit of his children, over those which the pride and the art of man have tavesten. From a long residence aming a portion of the

shoriginal inhabitants of this country, an an intimate acquaintance with the methods of cures of some of their most successful practioners, the prepaietor of the "THE INDIAS'S PARACES, acquired a knowledge of some of their most powerful and same, on whom a copy of the said declaration with favorable remedies. From these he selected such were most efficacious and appropriate, and after might be served—It is therefore Orderec, in pur-Tarious experiments to test their principles and suance of an act of the General "seembly, in the ctrength, he has combined them in the form here strength, he has combined them in the form here presented, as the most perfect and beneficial for appear an plead to the said declararation on or he fore the 2 th day of July, in the year of our Lord the purpose for which it is recommended

The proprietor offers this preparation to the pub lie. with the consciousness that he is placing wit in lie, with the consciousness that he is placing with in its reach, a remedy capable of relieving many of his afflicted fellow beings, who are suffering under the various chronic and obstimate complaints to Darlington, July 29, 1-35. [1y1d pr. 6cc \$6. which it is applicable. To such it will prove of inealculable value, as the means, and in many cases the only means of relieving their sufferings, and restoring them once more to health and happiness. This is not offered as a common remedy, that may perchange be equally good with many others now in use, but as one which is capable of saxing life in many extreme cases, when all the usual remedies fail. This it has done repeatedly, and this is the reputation it has obtained wherever it has been in-

mon was first presented to the public but in that iright be found, who would solemnly declare that as low as can be bought in this market, tothey believed that their lives were saved by it, wit;and in most cases after they had tried many per Gentlemen's fine Callskin Bonts, haps all the common remedies in vain. Wherever if is known it is rapidly coming into use, and this affords the most substantial and convincing proof ofi to merits.

The value of the Panacea, is most conspicuous in those long standing and obstinate syphilitic and serofulous affections which have defied all other so nedies, and particularly in those cases where mercury has been as lavishly used as to cause distressing pairs in the bones, nodes, mercuit I ul-Toes it completely removes and in all cases it estirely eradicates the dise se and the effects of mercury, removates the constitution, and leaves the patient cound and well. In Recommisms and 18 alcerated sore throat, its happy effects are not see apparent, giving almost immediate relief

Taken in proper doses, The Louis & Passers eperates as an alternative, and detergent, a diar phoretic, diaretic and laxative an antipa-modiandanidyne and in proper cases, as a stomartie & sminenagogue. Generally expressed, it incre sea all the secretions and excretions; gives tone to the somach and excites action in the glands in a paricular manner. From these principles its operation may be understood

This medicine has been found highly useful in many ambiguous diseases not here specified, and it has been used with wonderful success as a Spring and Fail, purifier, by those who are subject to complaints of the chest, and whose constitutions require new vigor. Such persons will do well to use two or three bottles in small doses. Whenever a diet drink is considered necessary, the Panacea. taken in a small dose, will answer all its purposes in much less time, at less expense, and in a far more agreeable manner, than the common diet

The following certificates, out of hundreds some far which might be procured, are given to show complaints therein mentioned an also to exhibit in the most satisfactory manner its superiority over the syrups in common use.

## CASES OF RHEUMATISM

CHARLESTON, Nov. 15, 1-31 During the last winter and spring I was attlice ded with a very severe and distressing Rheumat sin, eccasioned by exposure in bad weather. I now take great pleasure in stating, that six bottles the Indian's Panacea, restored me to perfect health, and I considently recom used it to all summarly af JOHN FERGUSON King-H. HARLESTON, darch 27, 1-by

I was seized about three years since with a distressing Rheumatism, caused by taking a more cold while under the influence of nercury, and which has disabled me from business nearly wer otnee. During thisperiod I have deen a patie it it the Marine Hospital in this City upwards of our months nearly and the same ength of time in the Buttonere Hospital and tried almost every to me dv. with little benefit. On the 10th of February Pan at that time sesreely able to move about upon suiches, I as a sended the use of The Indian Paneces. In eas month I tound myesif eaur
